Thank You, Nurses!

“I truly believe that destiny has brought us here for a purpose. Some stay with us for a long time and some will leave us sooner, but in practicing the art of the soulful calling that is nursing, we will leave this world a better place no matter where destiny will take us. You were meant to be here at this moment in time, but whatever may come, there is a plan and a purpose. We will all serve, but I am so happy to serve with you all. To my nursing friends, Happy Nurses Week.”

Tanya Perri

Vice President, Clinical Services

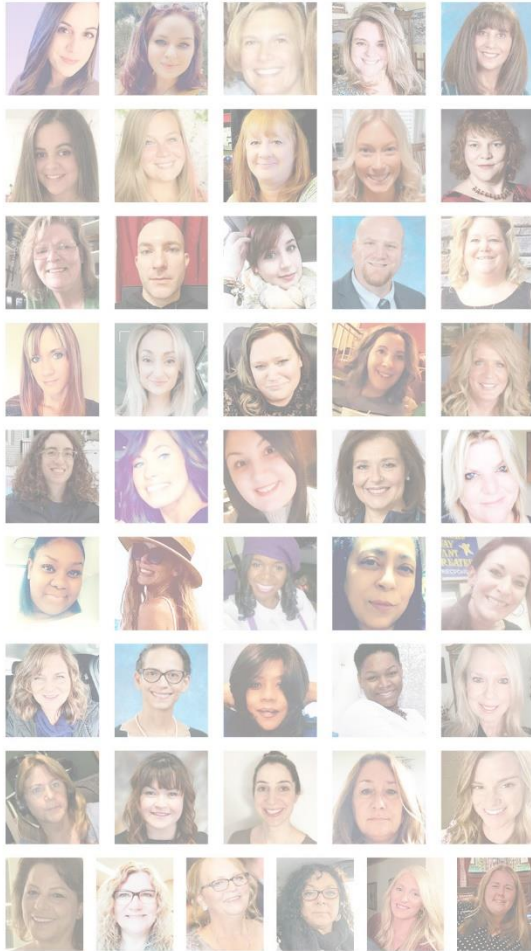

Thank You, Nurses!

“Mr. Rogers explained, ‘When I was a boy and I would see scary things in the news, my mother would say to me, “Look for the helpers. You will always find people who are helping.”’ The nurses of People Inc. have always been ‘The Helpers,’ but never in such a way as we have been in the last two years. Thank you for all that you do, all that you give to be the ‘Helpers.’”

Jake Wilkins
Vice President, HHCS

Thank You, Nurses!

“I am so proud of our nurses. You have never surrendered to the situation, never hesitated to give of yourself to the people we support and their families. Thank you to the most inspiring nurses and wishing you all a Happy Nurses Week! Thanks for your amazing services. We do not always acknowledge the efforts and services of nurses, who give their heart and soul into serving others.”

Senior Vice President
